

```
#include <iostream>
using namespace std;

int main() {
    int cont = 0;
    for (int i = 1; i <= 100; i++)
        if (i % 3 == 0)
            cont++;
    cout << "Cantidad de multiplos de 3: " << cont;
    return 0;
}
```
