```cpp
#include <iostream>
using namespace std;

int main() {
    int num, cont = 0;
    cout << "Ingrese un numero: ";
    cin >> num;
    while (num != 0) {
        num /= 10;
        cont++;
    }
    cout << "Cantidad de digitos: " << cont;
    return 0;
}
```
