```cpp
#include <iostream>
using namespace std;

int main() {
    int num;
    cout << "Ingrese un numero: ";
    cin >> num;
    for (int i = 1; i <= 10; i++)
        cout << num << " x " << i << " = " << num * i << endl;
    return 0;
}
```
